California Census 2020 Outreach Region 1 Funding Opportunity
Questions and Answers

Q: May an organization apply to work in more than one county?

A: Yes. In the application, the applicant will need to describe the outreach plan for each county they plan to conduct census outreach in. If you find that you don’t have enough space to fully describe each plan in one application, you may submit a separate application for each county.

Q: The Request for Proposals states that The Center will fund one community-based organization in each county. Even though one Complete Count Committee is covering both Sutter and Yuba counties, will The Center fund a community-based organization in either of these counties?

A: We anticipate funding one organization in each county, so one in Sutter County and one in Yuba County.

Q: May we work with partners?

A: You may have multiple partners to most effectively outreach to hard-to-count populations and census tracts in your county(ies). You may subgrant funds to partners, if appropriate. The grantee organization is ultimately responsible for conducting outreach.

Q: If we are not a 501(c)(3) organization, may we partner with the 501(c)(3) entity that holds our funds?

A: Yes. The entity that holds your funds would apply as the fiscal sponsor of your organization and would be the grantee organization.
