

Steering Committee on Reduction of African American Child Deaths

Community Leadership Roundtable Application Packet

Community Leadership Roundtable

INTRODUCTION

Thank you for your interest in applying for a seat on the Sacramento County Reduction of African American Child Deaths' Community Leadership Roundtable (CLR). The CLR is comprised of community leaders who work closely with the Steering Committee on Reduction of African American Child Deaths (RAACD) (www.shfcenter.org/raacd). The Steering Committee is a community-driven body, established by a resolution of the Sacramento County Board of Supervisors in June 2013, working to reduce deaths among African American children in Sacramento County by between 10 percent and 20 percent by 2020.

The Steering Committee serves in a public leadership role to engage and mobilize the community as well as provide coordination to make sustainable change that will achieve a reduction in preventable African American child deaths. Members of the CLR will assist and advise the Steering Committee in these efforts.

These efforts focus on four equally important causes of death that have the most disproportionate impact on African American children in Sacramento County. Those causes are:

- Homicide Related to Child Abuse and Neglect
- Third-Party Homicide
- Deaths Related to Perinatal Conditions
- Infant Sleep-Related Deaths

This work is directed toward seven focus neighborhoods with the greatest disproportionate number of African American child deaths in the county:

- Valley Hi
- Meadowview
- Arden-Arcade
- North Sacramento/Del Paso Heights
- Oak Park
- North Highlands/Foothill
- Fruitridge/Stockton Boulevard
